

# Individual Endorsement

I publicly endorse the principles of the  
Protect Our Hospitals Coalition.

I support POHC's principles to protect patients, hospital workers and the public interest in the proposed sale of our community hospitals. Deaconess and Valley Medical Centers are community assets and the community should be involved in a fair, open, public process. Regulators should thoroughly review the sale proposal to insure patients, healthcare workers and the public interest won't be harmed.
